

# HANSEN-RICE, INC.

## COLD STORAGE AND REFRIGERATION SERVICES

At **HANSEN-RICE, INC.** (HRI), we understand that our clients require refrigeration to produce and store their products in a safe and energy-efficient manner. The primary focus for HRI is the safety of their employees, products, and facilities including the requirements of OSHA's Process Safety Management (PSM) and EPA's Risk Management Plan (RMP). HRI brings engineering, design, and operational experience to the table for a balanced system that is functional, flexible, safe, and energy-efficient, with redundancies built in to ensure that your system is optimized.

### WE INTEGRATE THE FOLLOWING INTO NEW OR RETROFITTED AMMONIA SYSTEMS:

- Safe equipment and processes
- Engineering and design best practices
- Redundancy to allow for continuous operation
- Minimizing the ammonia charge
- Cascade systems for glycol or CO2 for reduction of ammonia exposures to employees
- Integration of controls and energy management systems
- Development and utilization of client developed PSM/RMP program and documents
